// ABOUT ME

Software Engineer with over 10 years of experience helping start-up and enterprise clients build outstanding digital solutions.

Some career highlights include working as a senior front-end developer for a multi-billion-dollar e-commerce platform, a popular SaaS product, and a cancer research health tech company.

A natural leader that enjoys using soft skills to confidently lead teams where fast-paced delivery is essential and agile methodologies are used. Detail-oriented and meticulous about implementation details while always considering and balancing broader stakeholder concerns.

When not perfecting my craft, I'm an adventure seeker looking for my next bike trail or wave to ride.
